

Economic Instability in Minnesota

611,000 Minnesotans

 (including 189,000 children under age 18) live in households that are **below** the federal **poverty threshold.***

→ ***\$20,160 for a family of three in 2016.**

“The needs of those in poverty are many. As a faith community nurse, I see people struggling to pay for needed prescriptions and avoiding necessary medical care. Poverty affects so many things - getting to work or school, adequate food and medicine and the ability to care for your children.”

~ Nancy Ludescher, Parish Nurse, Northfield

The Minnesota Family Investment Program (MFIP) helps families meet their basic needs while working toward financial stability.

7 of 10 MFIP recipients are children

→ **50% of those are under age 5** 

Scott County

Population: 141,660

Households in Poverty: 5.5% (up from 3.3% in 2000)

Children Receiving Free/Reduced Lunch: 22.1%

Households Receiving the Working Family Credit: 9%

Average Amount of Credit: \$648

Active MFIP Cases: 202

Pounds of Food Distributed from Reporting Food Shelves: 1,113,319 (79% increase from 2004)

‘Since there will never cease to be someone in need on earth, I therefore command you, ‘Open your hand to the poor and needy neighbor in your land.’

~ Deuteronomy 15:11

Poverty Data from the US Census Bureau (2014)

Free and Reduced Lunch Data from the Minnesota Department of Education (2015-16)

Working Family Credit Data from the Minnesota Department of Revenue (2013)

MFIP Data from the Minnesota Department of Human Services (July 2016, includes those adults in the Diversionary Work Program)

Food Shelf Data from Hunger Solutions Minnesota (2014)

2017 Legislative Agenda **Moving Families Into Economic Stability**

Strengthen the Safety Net for Low-Income Families and Children

The Minnesota Family Investment Program (MFIP) provides work support and temporary cash assistance for children and their parents - often low wage workers between jobs. MFIP cash assistance for a family of three is a maximum of \$532 per month. It has not changed since 1986. We support an increase of \$100 per month for these families.

Remove the Marriage Disincentive for Families on MFIP

Under current law, parents on MFIP often lose their benefits when they marry, based on the addition of the new spouse's income. This loss of benefits creates a disincentive for couples to marry. We know children benefit from stable families with two parents. Under our proposal, families participating in MFIP would be eligible to continue their participation for 18 months after they marry, without regard to the new spouse's income. They would receive no additional funds for marrying.

Improve the Working Family Credit and Increase Assets for Working Families

The Working Family Credit provides a tax credit for working people with lower incomes, helping them meet basic needs and support their families. JRLC supports expansion of the Credit to provide tax relief to these families and to include younger workers.
