

Economic Instability in Minnesota

577,000 Minnesotans

 (including 175,000 children under age 18) live in households that are **below** the federal **poverty threshold.***

***\$20,780 for a family of three in 2016.**

“Every week we receive requests to help with groceries, diapers, rent, and heating bills. In most cases, these families are working but not making a living wage. The need is larger than the combined efforts of churches and existing social services can address”

~ Rev. Brenda North, Detroit Lakes

The Minnesota Family Investment Program (MFIP) helps families meet their basic needs while working toward financial stability.

7 of 10 MFIP recipients are children

50% of those are under age 5 

Poverty Data from the US Census Bureau (2016)

Free and Reduced Lunch Data from the Minnesota Department of Education (2016)

Data for children ages 0-5 from the US Census, American Community Survey (2017). Eligibility for Women, Infants and Children (WIC) Program at 185% of federal poverty guidelines.
