

Economic Instability in Minnesota

577,000 Minnesotans

 (including 175,000 children under age 18) live in households that are **below** the federal **poverty threshold.***

***\$20,780 for a family of three in 2016.**

“The needs of those in poverty are many. As a faith community nurse, I see people struggling to pay for needed prescriptions and avoiding necessary medical care. Poverty affects so many things - getting to work or school, adequate food and medicine and the ability to care for your children.”

~ Nancy Ludescher, Parish Nurse, Northfield

The Minnesota Family Investment Program (MFIP) helps families meet their basic needs while working toward financial stability.

7 of 10 MFIP recipients are children

→ 50% of those are under age 5 

Scott County

Population: 141,660

Households in Poverty: 5.5% (up from 3.3% in 2000)

Children Receiving Free/Reduced Lunch: 22.1%

Children 0-5 Eligible for WIC: 16.1%

Active MFIP Cases: 132

of Children in CCAP (monthly average): 558
